

OBADIAH THARP Great Wheel known as the “SARAH

OBADIAH THARP Great Wheel (a walking spinning wheel).

This is an Obadiah Tharp "Sarah" model wheel designed and crafted by Obadiah Tharp in the late 1970's.

The wood is Eastern Hard rock maple and hickory, finished in handprubbed oil. This wheel was pucased new from the builder in the lat 1970's or early 1980's. I am the original owner. It has been used very little but always stored in a warm house. This spinning wheel is no longer being built. Obadiah Tharp great wheels are very functional wheels built by a wonderful craftsman so they are beautiful instruments as well.
