

**Wool Dyeing Techniques**  
**Monday and Wednesday evenings –**  
**Sept 4<sup>th</sup>, 6<sup>th</sup>, 11<sup>th</sup> and 13<sup>th</sup> 5:30-8:30pm at Calypso Farm**  
**Cost: \$120    Materials: \$60**

Just wanted to let you know about this upcoming dyeing workshop  
at Calypso Farm -  
register by emailing  
[calypsosusan@gmail.com](mailto:calypsosusan@gmail.com) - or calling the farm [907-451-0691](tel:907-451-0691).

Learn how to use eco-friendly dyes to create unique multiple color effects, using several different techniques. We will be dyeing wool yarn or roving (students can choose). If you are not already a spinner, you can do the first three classes or you can also arrange for some private spinning classes so that you'll be ready for the fourth class! This is a four part class which will cover the following:

Introduction to Acid Dyes and Kettle Dyeing

In this class, students will become familiar with Acids Dyes and how they work – and Kettle Dyeing, which results in beautiful, colorful, random, variegated results

Intro to Color Work (Using the Color Wheel) and Hand Painting

In this class, students will be exposed to some of the basics of using the color wheel as a tool to help decide on a color pallet. Students will also learn how to hand paint yarn or roving

Creating a “Colorway”

In this class, students will have the opportunity to play with colors and create a personal “colorway” using any of the dyeing techniques used in previous classes

Spinning in Color

In this class, students will experiment with different spinning techniques and how the spinning impacts the end result color of the yarn and finished product
